How To Install Internet Explorer 7

1. From the desktop, double-click on the "IE7-WindowsXP-x86-enu.exe" file.
2. Click **Run**. Wait for the files to extract.
3. At the Welcome screen, click **Next**.
4. At the License terms screen, click **I Accept**.
5. At the Validate your copy of Windows screen, click **Validate**.
6. At the Get the latest updates screen, click **Next**.
7. Wait while updates for Windows Internet Explorer 7 are downloaded, the Microsoft Malicious Software Removal tool is run, Internet Explorer required updates and Core Components are installed. The entire process may take from 10 to 30 minutes.
8. When complete, click **Restart Now (Recommended)**.
9. Log back in to the computer.
10. **Re-enable your your AntiVirus and Spyware Prevention programs**. See the final section of the above How To.
