HOW TO WHITELIST AN E-MAIL ADDRESS

Purpose: Many times Spam filters remove e-mail that you had been looking for. Whitelist sare created to solve this problem. A Whitelist will allow a particular e-mail domain or address everytime. Addresses and domains that are marked or deleted by spam, should be whiteleisted.

How-to:

1. Open a new e-mail
2. In the To: box type: info@technology-usa.net
3. In subject line type: Whitelist
4. In the body of the message insert the domain or e-mail address you want to whitelist. Acceptable formats: *@domain.com , anyone@domain.com , or @domain.com . Only place (1) on each line.
5. Your domains will be Whitelisted after about 24 hours.
